SUMMARY

I am a skilled Laravel developer experienced in building robust and scalable web applications. With expertise in Laravel's powerful features and elegant syntax, I create efficient architectures, develop APIs, and design intuitive user interfaces. I prioritize clean and maintainable code while staying updated with the latest industry trends. My goal is to deliver high-quality solutions that meet client requirements and provide seamless user experiences.

EXPERIENCE

Full-stack developer
12/2022 - Present

Azerbaijan State Tourism Agency

- Developed a robust booking system using Laravel, PHP, and Yii2, enhancing the user interface and overall user experience.
- Performed performance optimization tasks, ensuring smooth and efficient operation of web applications.
